

Homework for Year 1 and 2 for 2nd half of Autumn Term

We would like you to do a special project with the help of your adult at home. Please bring this into school on Monday 13th November.

You may want to do this homework in half term or you may prefer to work on it over the next few weeks.

Choose a country that you are interested in. Find the country on a map and learn which continent it is in.

Find out lots of exciting information about your country. You could look in books, visit the library, ask friends or family who have visited the country or look on the internet. Finding out information is something we are learning in Key Stage 1.

When you have found your information, choose a way to share what you have found out with your class. Some ideas might be to make a poster about the country, design a travel brochure, write about the country, make a model of a famous building in your country, prepare a short talk or prepare information to show on the computer. We don't mind which way you share your information so choose a way you will enjoy.

On the afternoon of the 13th the grown up collecting you can come into your classroom at 2.45pm to look at all the work you and your classmates have prepared.

Thank you for your support

Year 1 and 2 Staff
